

# **INTRODUCTION OF THE HEALTH AND MEDICAL RESEARCH FUND**

**Research Office  
Health Bureau  
1 February 2023**

# OUTLINE

- Overview of the Health and Medical Research Fund (HMRF)
- Funding Scope
- Thematic priorities
- Submission and Timeline
- Examples of early rejected applications

# OVERVIEW OF HMRF

## Establishment

- Dec 2011
- Consolidation of former funds\*

## Operation

- Annual basis – Open Calls
- Policy driven – Commissioned programmes

## Administration

- Research Fund Secretariat, Health Bureau

\*Former funds:

- Health and Health Services Research Fund
- Research Fund for the Control of Infectious Diseases
- Health Care and Promotion Fund

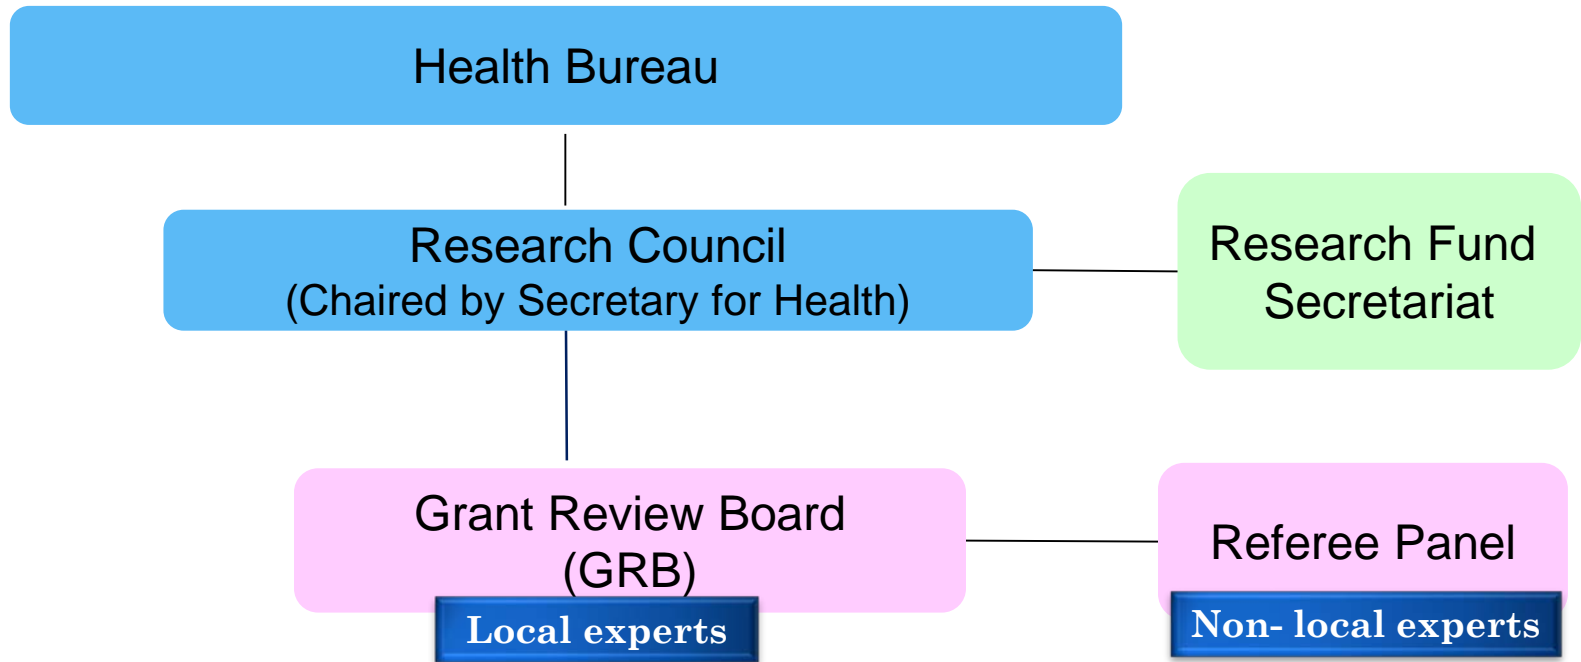

# OVERVIEW OF HMRF

## Mission

- *build research capacity and to encourage, facilitate and support **health and medical research** to:*
  - *Inform health policies*
  - *Improve population health*
  - *Strengthen the health system*
  - *Enhance healthcare practices*
  - *Advance standard and quality of care*
  - *Promote clinical excellence*
  
- ... through generation and application of **evidence-based scientific knowledge** derived from local research in health and medicine.*
  
- *funding support to **evidence-based health promotion projects** that help people **adopt healthier lifestyles** by enhancing awareness, changing adverse health behaviours or creating a conducive environment that supports good health practices.*

# OVERVIEW OF HMRF

## Governance Structure

 Governing body    Technical arm    Executive arm

# FUNDING SCOPE

# FUNDING SCOPE

## Areas of Projects

➔ Public Health, Human Health and Health Services Research

---

---

➔ Infectious Diseases Research

---

---

➔ Advanced Medical Research

---

---

➔ Health Promotion

---

---

# PUBLIC HEALTH, HUMAN HEALTH AND HEALTH SERVICES RESEARCH

Examine the **cause, prevention and treatment** of the full range of diseases and conditions that affect human health; and the impact of the organisation, financing and management of **healthcare services** on the delivery, quality, cost, access to, and outcomes of such services.

- Public health research
- Health services research
- Chinese medicine

# INFECTIOUS DISEASES RESEARCH

- Focus on infectious diseases which are **prevalent in Hong Kong** and **neighbouring regions** or areas in which the Hong Kong academic community has a competitive edge
- Basic science, clinical, translational, epidemiological and health services research studies are supported

# ADVANCED MEDICAL RESEARCH

- Proposal shall focus on **clinical studies** which **apply advanced technologies** to facilitate the translation of knowledge generated from health and health services or infectious diseases studies into **clinical practice and to inform health policy**.
- **Basic/pre-clinical research studies are not supported.**

# ADVANCED MEDICAL RESEARCH

- Examples of **clinical studies using advanced technologies**:
  - **clinical trials** on effectiveness of disease treatment using genome editing technologies;
  - clinical applications of **sequencing technology** for **disease prognosis, diagnosis and treatment strategies**;
  - development of **augmented or mixed reality** approaches for drug treatments, surgical procedures, systemic therapy and radiotherapy with evaluation in clinical practices;
  - **disease diagnosis or monitoring**

# HEALTH PROMOTION

- Base on scientific evidence and evaluated in a systematic way
- Include a coordinated set of activities that help people adopt **healthier lifestyles** by enhancing awareness, changing adverse health behaviours or creating a conducive environment that supports good health practices
- Pre-set criteria for process and outcome evaluation based on the **RE-AIM** framework **is required**
  - Reach, Effectiveness, Adoption, Implementation, Maintenance/ sustainability

# FUNDING SCOPE

Emphasise on translational potential so as to:

1

Improve patient care and population health

2

Influence clinical practice and/or health services management

3

Inform health policy in Hong Kong and elsewhere

4

Identify potential facilitators and barriers to this impact being achieved

Applicants to elaborate in eForm Section 5(a)

# THEMATIC PRIORITIES

# Thematic priorities for 2022 HMRF Open Call

**F. Implementation Science**

**A. Infectious Diseases**

**B. Non-communicable Diseases**

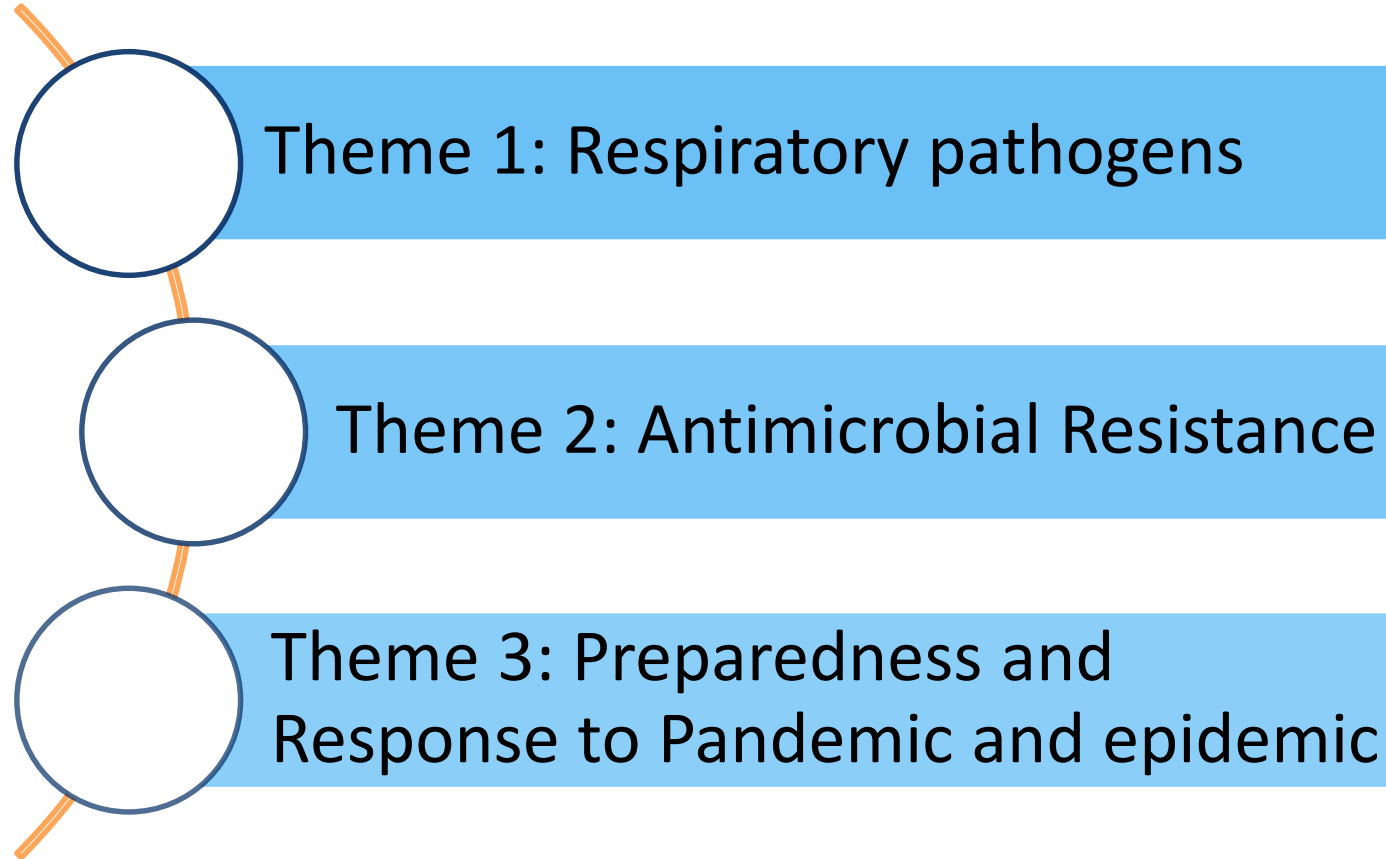

**E. Telehealth &  
Advanced Technology**

**D. Preventive Medicine**

**C. Primary Healthcare**

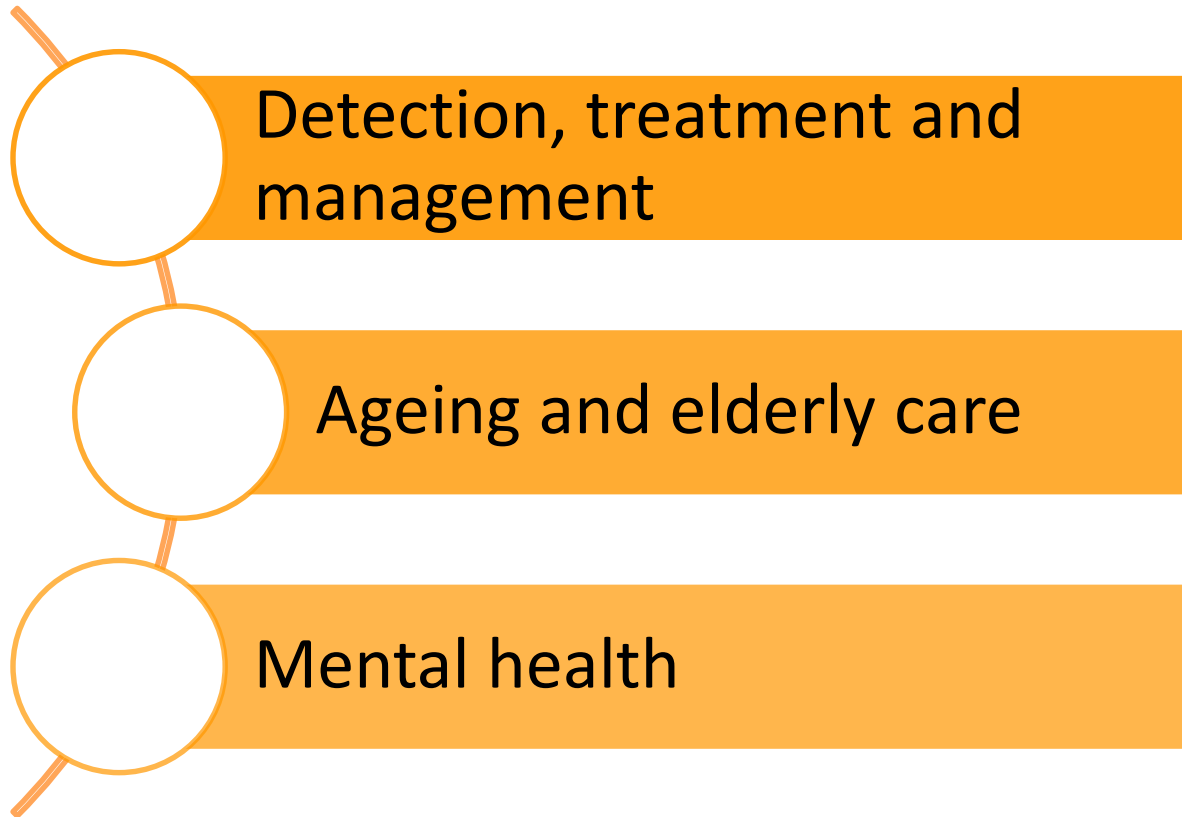

# A. INFECTIOUS DISEASES

- 
- Theme 1: Respiratory pathogens
  - Theme 2: Antimicrobial Resistance
  - Theme 3: Preparedness and Response to Pandemic and epidemic

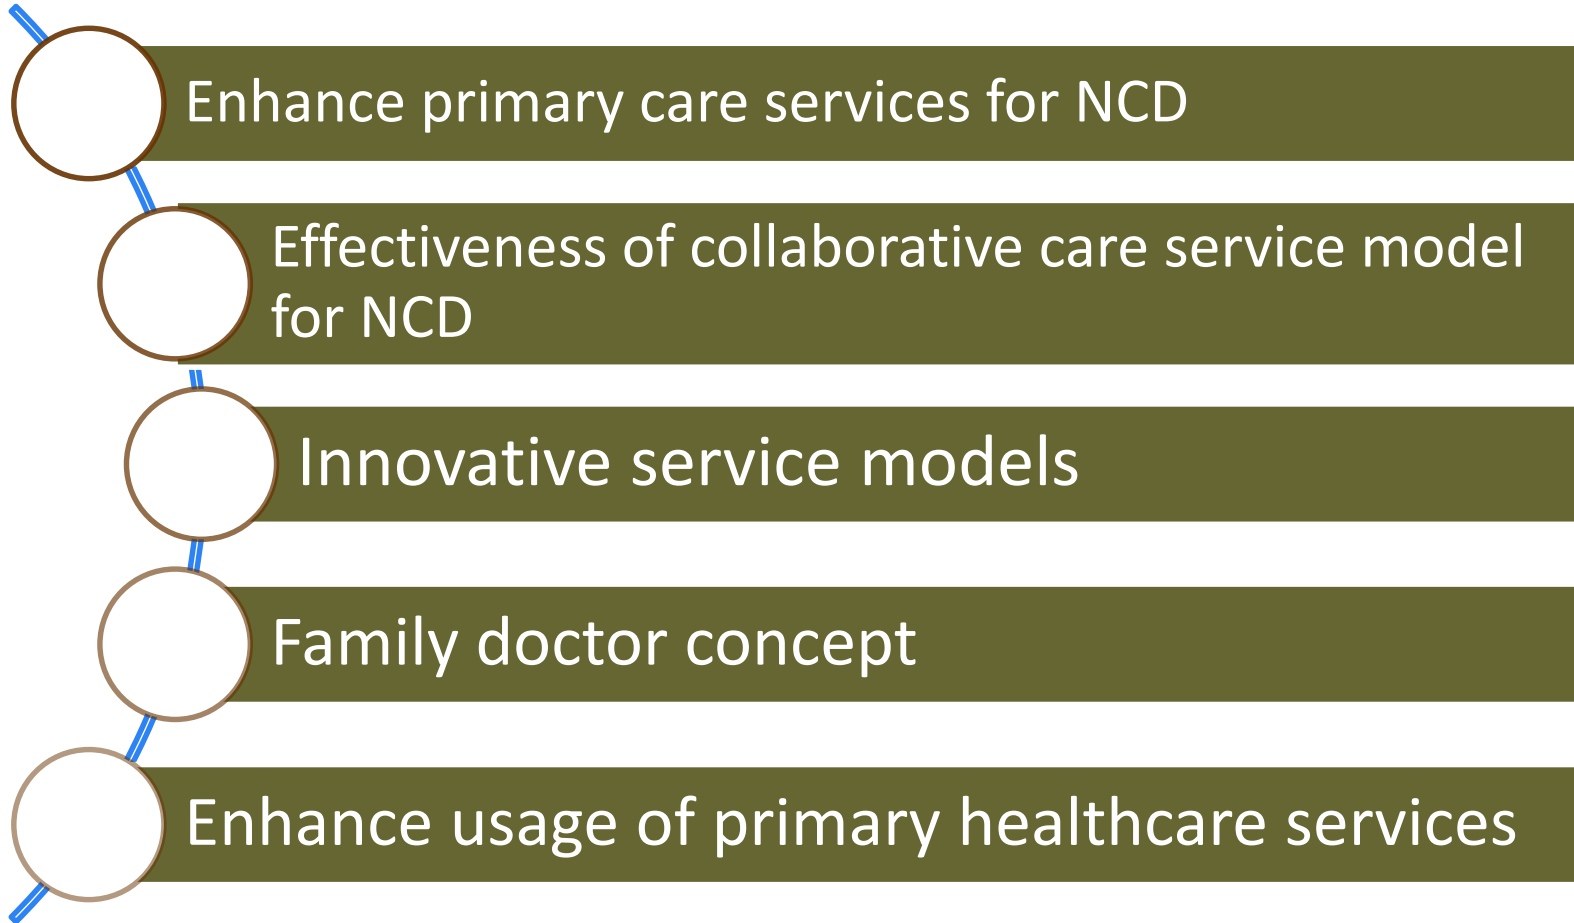

## B. NON-COMMUNICABLE DISEASES

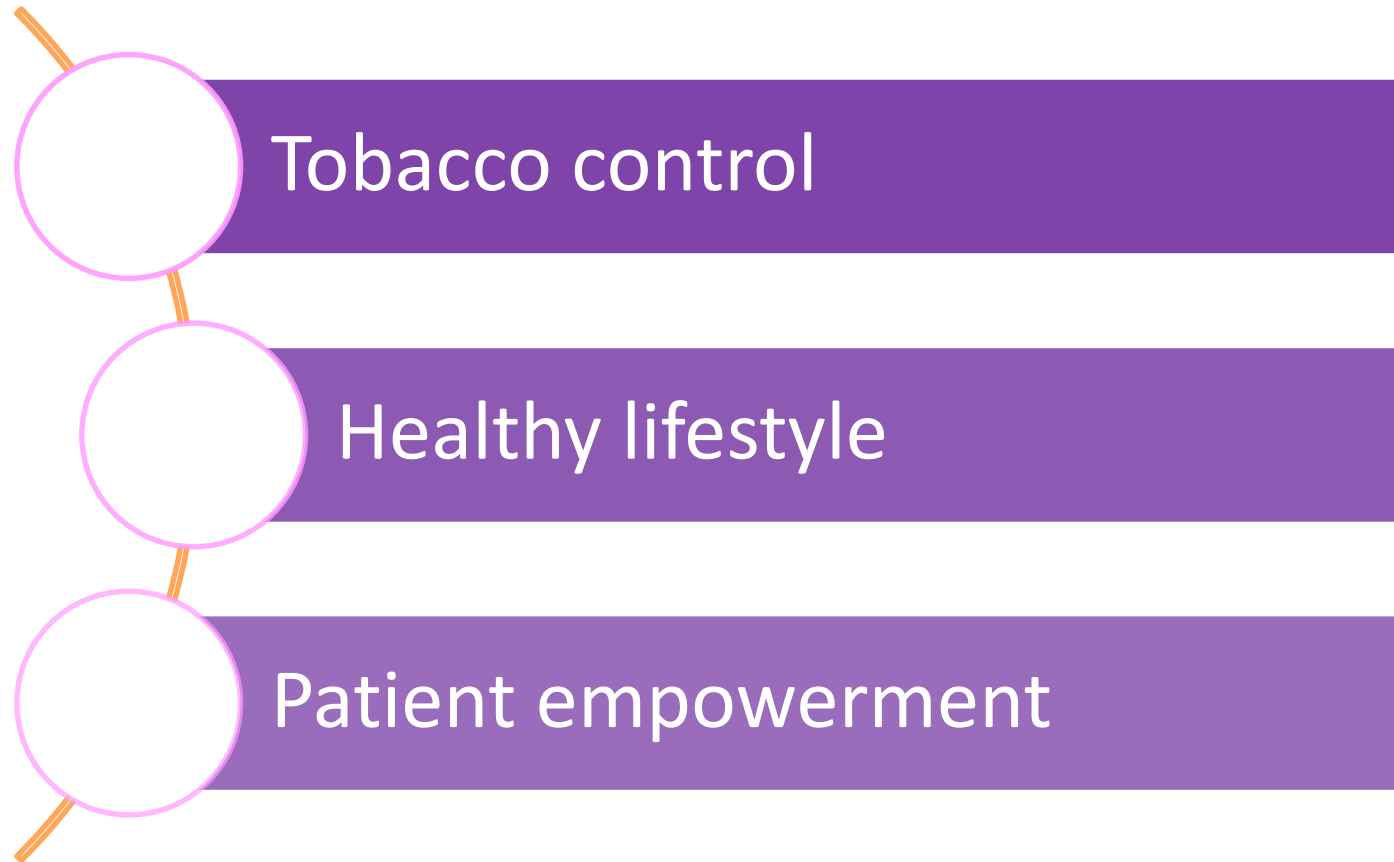

## C. PRIMARY HEALTHCARE

**Key areas of thematic priorities:**

- 
- Enhance primary care services for NCD
  - Effectiveness of collaborative care service model for NCD
  - Innovative service models
  - Family doctor concept
  - Enhance usage of primary healthcare services

## D. PREVENTIVE MEDICINE (NEW)

# E. TELEHEALTH AND ADVANCED TECHNOLOGY (NEW)

**Key areas of thematic priorities:**

- Genetics/genomic in clinical applications
- Big data analytics of clinical information
- Technology-based clinical management systems
- IT tools/solution and advanced technology for smart care provision

## F. IMPLEMENTATION SCIENCE

**Pre-set criteria/framework/model to analyse barriers & facilitators of implementation outcomes:**

Consolidated Framework for Implementation Research (CFIR)

Practical, Robust, Implementation Sustainability Model (PRISM)

Reach Effectiveness Adoption Implementation Maintenance (RE-AIM)

Theoretical Domains Framework (TDF)

Promoting Action on Research Implementation in Health Services (PARHiS)

Applicants to elaborate in eForm Section 13(d)

# **SUBMISSION AND TIMELINE**

# GRANT SIZE & TYPES

**1** application per Principal Applicant. Select either one from -

\$1.5 million for up to 3 years

Seed Grant: \$0.5 million for up to 3 years

Research project

Health promotion project

New proposal

Resubmission

# GRANT SIZE & TYPES

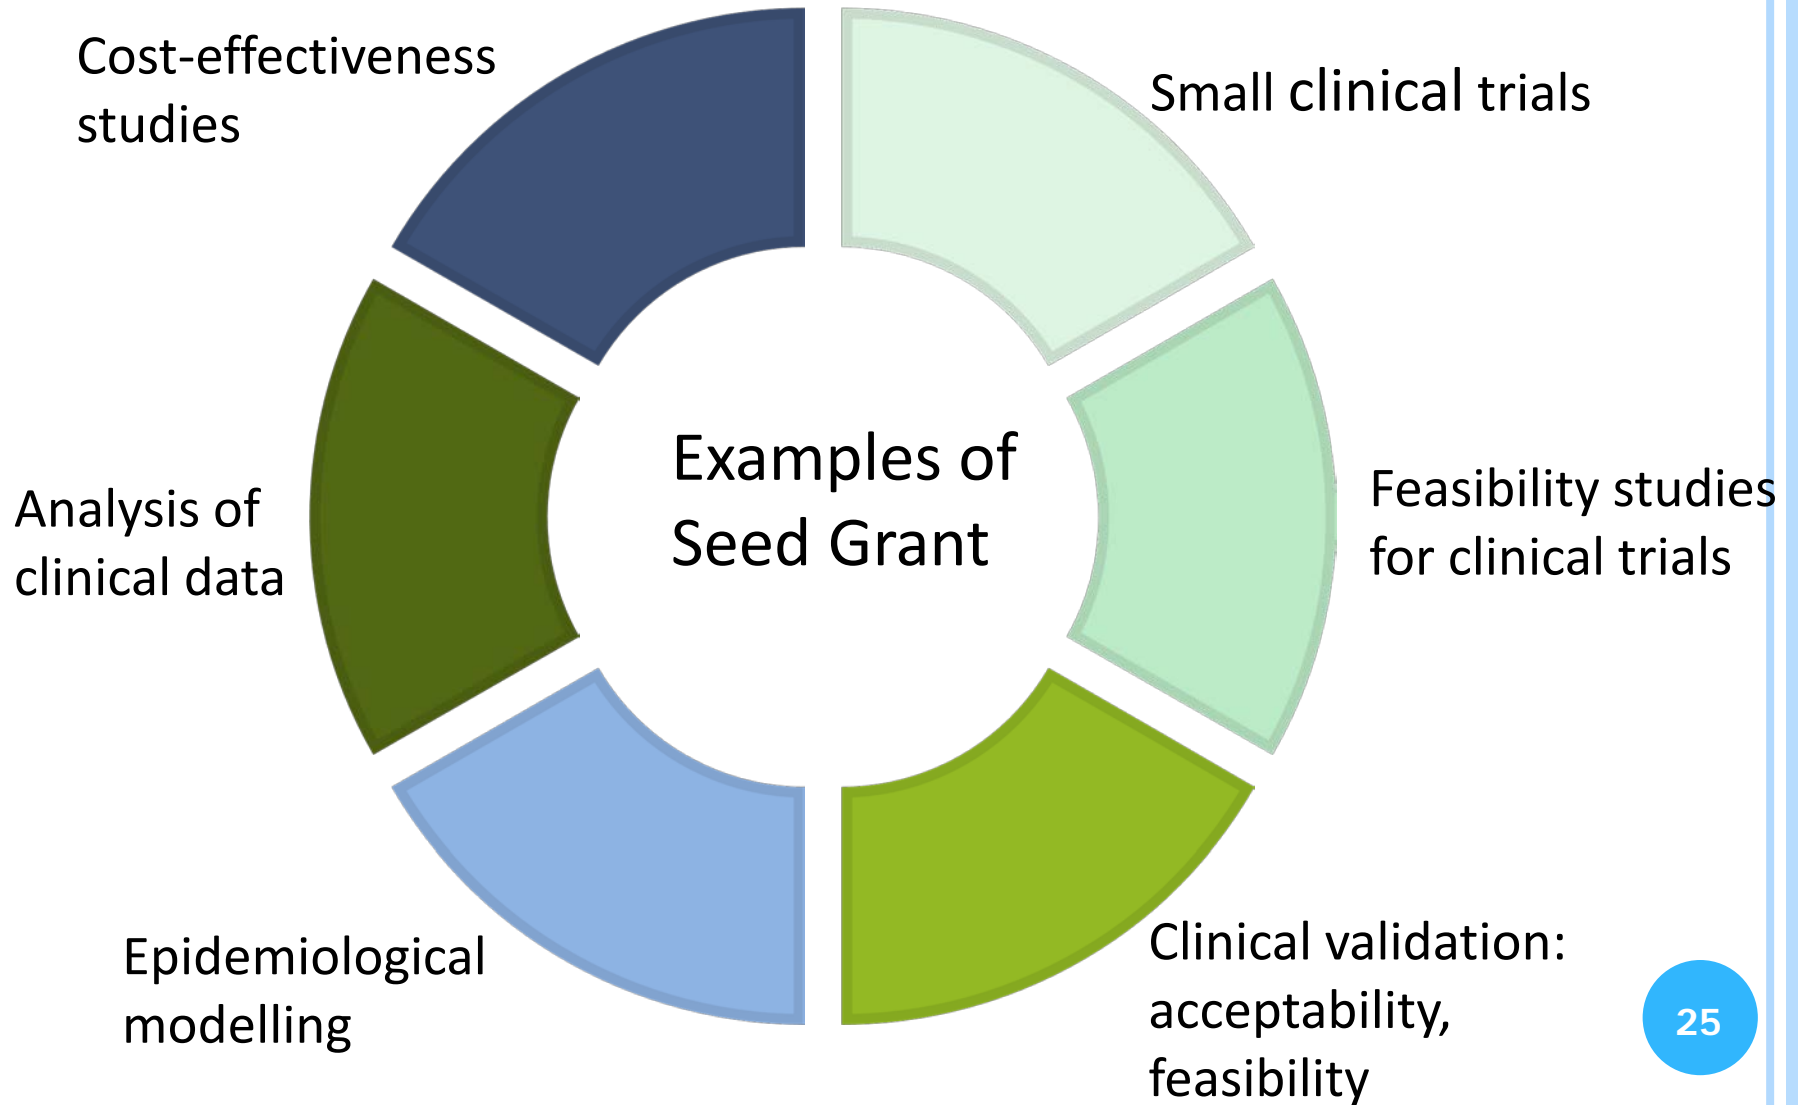

Starting from 2021 Open Call

## Seed Grant

Grant ceiling	≤\$500,000
Criteria	<ol style="list-style-type: none"><li>1. Larger-scale pilot study <u>or</u> small-scale study with achievable objectives; and</li><li>2. Pre-defined outcome indicators to scale up</li></ol>

# Seed Grant

# ELIGIBILITY

- ✓ **Locally based** tertiary institutions, hospitals, medical schools, non-governmental organisations and other appropriate centres, units and services
- ✓ PA must be **based in a Hong Kong organisation throughout** the project period and be employed by the administering institution at the time of submitting the application

**Inform us immediately** if you plan to leave the local institution after submission of application. Failure to do so will result in disqualification of the application

# SUBMISSION OF APPLICATION

- ▶ Through eGMS by 31 March 2023 (18:00 HKT)
- ▶ Your institution's internal deadline, if any
- ▶ Signatures of all applicants are required
- ▶ Receive acknowledgement email upon successful submission of application via eGMS
- ▶ Application will NOT be processed if the correct proposal template (Section 13) is not used

# eGMS – ONLINE SUBMISSION

Welcome to the electronic Grant Management System (eGMS) of the Research Fund Secretariat of the Health Bureau, HKSAR.

This is an online platform for managing the funding applications administered by the Research Fund Secretariat. The system supports electronic submission of proposals, on-line management of approved projects and dissemination of project results.

All grant applications must be submitted via this system starting from the launch of eGMS in December 2014. By setting up one single eGMS account, you can submit multiple grant applications for funding administered by the Research Office of the Health Bureau.

<h3>Login to eGMS</h3> <p>Email: <input type="text"/></p> <p><i>Your login email is your email address.</i></p> <p>Password: <input type="password"/></p> <p><input type="button" value="Login"/> <a href="#">Forgot your password?</a> <a href="#">Forgot your login?</a></p> <p><input type="button" value="Login with iAM Smart"/></p> <p><a href="#">More Info &gt;</a></p> <p><a href="#">Frequently Asked Questions</a></p>	<h3>Account Registration <i>(FOR APPLICANTS ONLY!)</i></h3> <p><input type="button" value="Register for Principal Applicant Account"/></p> <p><input type="button" value="Register for Co-Applicant Account"/></p> <h3>Notes to Grant Review Board (GRB) Members/ External Reviewers</h3> <p>eGMS account has already been registered for GRB Members and External Reviewers. Please contact the Research Fund Secretariat (Email: <a href="mailto:egmsenquiry@healthbureau.gov.hk">egmsenquiry@healthbureau.gov.hk</a>) if you have any questions.</p> <p>v2.192(Soft Launch)</p>
---	--

For security reasons, with effect from 16 May 2018, the eGMS supports the following browsers: Google Chrome, Mozilla Firefox or Safari 7+ with Transport-Level-Security (TLS) protocol version 1.2. For details, please click [here](#).

# SECTION 13 PROPOSAL

- **Two different templates** for Sections 13 (a) – (h) must be attached as a PDF file to the e-Form

**2022 HMRF Open Call – Research Proposal**

**2022 HMRF Open Call – Health Promotion Proposal**

  - [Guidance Notes - Grant Application for Investigator-initiated Projects](#) (PDF File 697K) updated
  - [Explanatory Notes - Grant Application for Investigator-initiated Projects](#) (PDF File 688K) updated
  - Electronic Application Form (e-Form): Available on [eGMS](#)  
(Path in eGMS: Project > Application > Application Call > Web-based Online e-Form)
  - [Proposal Template for Research Project \(Section 13\(a\)-\(h\)\)](#) (Word File 35K) updated
  - [Proposal Template for Health Promotion Project \(Section 13\(a\)-\(h\)\)](#) (Word File 32K) updated

# SECTION 13 PROPOSAL (RESEARCH PROJECT)

## ○ (d) Plan of Investigation accordingly -

### d) Plan of Investigation:

[For advanced medical research, basic/pre-clinical research studies are not supported. Please state clearly how the study will focus on clinical studies and apply advanced technologies to facilitate the translation of knowledge generated from health and health services or infectious diseases studies into clinical practice and to inform health policies.]

[For project addressing the thematic priority of Implementation Science, please state clearly the proposed framework(s) / model(s) to analyse barriers and facilitators of implementation outcomes.]

[For seed grant application (i.e. grant ceiling is HK\$500,000), please state clearly the pre-set criteria to enable scale-up to a larger project and/or enhance the efficacy/effectiveness of existing practice.]

(i) Subjects (with justification on the sample size) [REDACTED]

(ii) Methods [REDACTED]

(iii) Study design [REDACTED]

(iv) Data processing and analysis [REDACTED]

(v) Potential pitfalls and contingency plans [REDACTED]

# SECTION 13 PROPOSAL (HEALTH PROMOTION)

- (d) Project Plan accordingly -

(d) Project Plan:

[Please state clearly the pre-set criteria for process and outcome evaluation based on the RE-AIM framework. Please refer to <https://re-aim.org/> or <https://www.fic.nih.gov/About/center-global-health-studies/neuroscience-implementation-toolkit/Pages/methodologies-frameworks.aspx> for reference.]

[For project addressing the thematic priority of Implementation Science, please state clearly the proposed framework(s) / model(s) to analyse barriers and facilitators of implementation outcomes.]

[For seed grant application (i.e. grant ceiling is HK\$500,000), please state clearly the pre-set criteria to enable scale-up to a larger project and/or enhance the efficacy/effectiveness of existing practice.]

(i) Target group (justify and explain the feasibility in reaching the target group size)

(ii) Implementation plan

(iii) Contingency / alternative plan if any problem encountered during implementation

(iv) Cross-sector collaboration

# RESUBMISSION

- Applications rated “2” or above in a previous HMRF Open Call can be submitted under the category of “Resubmission”–
  - Application rated “2” should be **substantially** revised to address all GRB and/or reviewers’ comments in a structured and consistent manner
  - Application rated “3”/”4” should be revised to address all GRB and/or reviewers’ comments in a structured and consistent manner

# RESUBMISSION

- To be assessed on the **continued relevance** of the application with respect to knowledge gap, policy needs, translational value and **prevailing thematic priorities** at the time of resubmission
- Having satisfactorily addressed previous comments is **not a guarantee** of funding

# RESUBMISSION

- Applications rejected in a previous HMRF Open Call (i.e. no grading or rated “1” or incomplete or outside of the funding scope) or Research Fellowship Scheme, or other funding agencies (local or overseas) must be submitted as a new application with extensive changes or improvements made with full justifications

# REGULATORY / ETHICS APPROVAL

## Ethical/safety/regulatory approvals/consent

- Submit within 12 weeks (or as specified by the Secretariat) after announcement of funding decisions

## Clinical Trial Certificate/Medicinal Test Certificate

- Confirm with Department of Health if required as early as practical

# CONSENT FOR ACCESSING THIRD-PARTY DATA

- Clarify access to data / resources provided by others, e.g. letter of collaboration (colleagues in other local institution, overseas institution, Government departments, etc)
- Hospital Authority: Data Sharing Portal

The screenshot displays the Hospital Authority Data Sharing Portal. The browser address bar shows the URL [www3.ha.org.hk/data/provision/applicationprocedure](http://www3.ha.org.hk/data/provision/applicationprocedure). The page header includes the Hospital Authority logo and the text 'HOSPITAL AUTHORITY DATA SHARING PORTAL'. A navigation menu contains links for Home, What's New, HA Statistics, Provision of HA data for Research, Data Collaboration Lab, and Contact Us. The main content area features a banner with the text 'Provision of HA data for Research' and a breadcrumb trail: Home > Provision of HA data for Research > Application Procedure. Below the banner, there is a 'Print' button and the section title 'Application Procedure'. The text on the page states: 'We have [Standard Procedures] and [Personal Information Collection Statement (PICS)] that are applicable to all data request applications and there are two options under the current Mechanism, namely Option A and Option B with details as follows. If applications are accepted by the panel, an [Undertaking Form] which sets out the terms and conditions applicable to the use of Data will have to be signed before work commences.' The section 'Option A: Expedited Approach' is highlighted, followed by text explaining that this approach is designed for frequently asked data items to expedite the workflow and provide researchers with an additional choice if it can meet their study purpose. It also notes that requestors can opt to specify a set of aggregated summary data by multiple dimensions by simply selecting data measurements and classification dimensions on

# POINTS TO NOTE

## ○ Declaration

- **Supplementary sponsorship** - Monetary, investigational new drugs/devices, reagents, consumables and rental of equipment
- Any use of the grant monies to **purchase products** or **services** from businesses owned wholly or partly by the administering institution or any of the applicants, or any of the proposed personnel and sub-contractors/agencies to be engaged in the project

# POINTS TO NOTE

- Duplicate funding
  - Failure to declare **double funding** (including submission of grant applications or **similar proposals** to HMRF or other funding agencies (local or overseas)) and potential **conflict of interest** shall be subject to penalty as determined by the RC
  - Work done before project commencement date must be declared
- **Plagiarism**
  - Plagiarism, including self-plagiarism, is not tolerated and is considered as a type of serious misconduct and subject to penalty

# POINTS TO NOTE – FUNDED PROJECTS

- Progress updates and Interim Reports
- Proactively report difficulties encountered
  - e.g. slow progress, unexpected conditions affecting project completion, prior approval is required for change in study/project design, project extension and project team
- Final report, dissemination report, financial statement and audited account
- Outcome evaluation surveys 2 years and 4 years after project end date
- Dissemination activities, e.g. publication in Hong Kong Medical Journal, present at Journal Clubs, symposium, meetings and related HMRF activities.

# **EXAMPLES OF EARLY REJECTED APPLICATIONS**

# EXAMPLES

## IMMATURE APPLICATIONS

Insufficient  
details for  
peer review

- Too few words (word limit: 4000).
- Research methods are described by reference to **citations without description**
- Lacking description of **sampling, inclusion and exclusion criteria** and how the primary and secondary **outcomes are collected and measured**
- Bullet points on **data processing and analysis** (or just provide the names of test statistics) without description

# EXAMPLES

## IMMATURE APPLICATIONS

Insufficient  
details for  
peer review

- For Health Promotion project, no pre-set criteria for process and outcome evaluation based on the [RE-AIM framework](#)

# EXAMPLES

## INELIGIBLE APPLICATIONS

Non-compliance  
with submission  
requirements

- Exceeds word limits (4,000 words) in detailed proposal (Section 13(a) to (d))

e.g. putting “Plan of Investigation” to Appendix (5-page long)

- Use the wrong template (Section 13) for detailed proposal

e.g. A health services research was submitted as “Health Promotion” under Area of Project and detailed as “Health Promotion Proposal” in Section 13

# EXAMPLES

## INELIGIBLE APPLICATIONS

Non-compliance with submission requirements

- Not meeting resubmission requirements  
e.g. Point-by-point responses were not provided to address all comments made by the Grant Review Board and Reviewers.
- Incomplete application  
e.g. Under-declared a grant proposal rejected by another funding agency; responses to reviewers' comments and the revised proposal with highlights of changes were not provided

## OUT OF SCOPE - ADVANCED MEDICAL RESEARCH

-  Clinical research not using advanced technologies
-  Basic / preclinical research

# EXAMPLES

## OUT-OF-SCOPE

### Advanced Medical Research

- Establish cell lines, organoids and xenografts for preclinical drug testing studies **without clinical validation**
- Use of human samples for modeling disease pathogenesis in animal study / cell line **without clinical validation**
- Examine molecular mechanism and therapeutic effects of a new drug **without use of advanced technologies**

# EXAMPLES

## OUT-OF-SCOPE

Health and  
Health  
Services  
Research

- Examine the functional roles and molecular mechanisms of an enzyme in metastatic cancer cells using **in vivo and in vitro studies**
- Evaluate a stem cell therapy for treatment of non-communicable disease in **animal models**

# EXAMPLES

## OUT-OF-SCOPE

### Infectious Diseases

- Investigate novel viruses to improve **animal health** and not related to human health
- Examine the **gut microbiota** in treatment of non-communicable diseases using animal models

# APPLICATION TIMELINE FOR 2022 OPEN CALL

Date	Items
31 Mar 2023 (18:00 HKT)	Closing date
Sep / Oct 2023	Decision letters issued <ul style="list-style-type: none"><li>• PA to respond to the comments of External Reviewers (ERs) and/or Grant Review Board (GRB) within 3 weeks</li></ul>
Nov 2023 – Mar 2024	Review of PAs' responses to satisfactorily address comments of ERs and/or GRB
	Final approval letter and agreement after resolving all outstanding issues including budget clarification and ethics approval

## Investigator-initiated Projects

The HMRF invites applications for investigator-initiated research projects and health promotion projects.

The normal grant ceiling for a proposal is HK\$1,500,000 and the usual duration is 3 years. Higher grants or grants of longer duration may be awarded where justified.

Larger-scale pilot studies, such as those evaluating trialability and scalability for future implementation, and small-scale research with achievable objectives, can be submitted to seed grant with a grant ceiling of \$500,000 per project.
